

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Id

Column Data Type: uniqueidentifier

Short Description: Unique identifier for each vendor record.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CompanyId

Column Data Type: uniqueidentifier

Short Description: A unique identifier assigned to each vendor company within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CurrentYear

Column Data Type: int

Short Description: The 'currentyear' field represents the fiscal year in which vendor management activities are being tracked and evaluated.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: SowJdNumber

Column Data Type: varchar

Short Description: The 'sowjdnumber' serves as a unique identifier for each Statement of Work (SOW) within the vendor management system, facilitating precise tracking and management of vendor-related projects.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: SowJdTypeid

Column Data Type: uniqueidentifier

Short Description: The 'sowjdtypeid' column identifies the specific type of Statement of Work (SOW) job description associated with a vendor contract.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Description

Column Data Type: varchar

Short Description: A brief overview of the vendor engagement or project scope.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CustomerTypeId

Column Data Type: uniqueidentifier

Short Description: The 'customertypeid' field categorizes the type of customer associated with a vendor, aiding in tailored management and service delivery.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CustomerName

Column Data Type: varchar

Short Description: The 'customername' field identifies the name of the client or organization involved in a vendor management contract.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: WbsId

Column Data Type: uniqueidentifier

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: InternalResourceCheckdone

Column Data Type: smallint

Short Description: Indicates whether an internal assessment of available resources has been completed for a vendor-related project.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: IsCustomerApprovalAvailable

Column Data Type: smallint

Short Description: Indicates whether customer approval has been obtained for a vendor-related project or service.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: IsprojectGDPRRelevant

Column Data Type: smallint

Short Description: Indicates whether the project complies with GDPR regulations.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: IsStandardGPAIsSufficient

Column Data Type: smallint

Short Description: Indicates if the standard General Procurement Agreement (GPA) meets the requirements for the vendor engagement.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: C2PAgreement

Column Data Type: smallint

Short Description: The 'c2pagreement' field in Vendor Management refers to the contractual agreement between the company and its vendors, outlining the terms and conditions for collaboration.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: IsResourceAugmentationNeedExtensionOfC2P

Column Data Type: smallint

Short Description: Indicates if extending the C2P agreement is necessary for resource augmentation.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: C2PDocumentPrepared

Column Data Type: smallint

Short Description: Indicates whether the Contract-to-Pay (C2P) document has been prepared for a vendor engagement.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: OutSourcingTypeId

Column Data Type: uniqueidentifier

Short Description: The 'outsourcingtypeid' identifies the specific category of outsourcing arrangement within vendor management, facilitating the classification and management of vendor contracts.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: StartDate

Column Data Type: datetime

Short Description: The 'startdate' marks the commencement of a vendor engagement or project within the Vendor Management system.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: EndDate

Column Data Type: datetime

Short Description: The 'enddate' marks the conclusion of a vendor contract or project within the Vendor Management domain.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: PlantId

Column Data Type: uniqueidentifier

Short Description: Unique identifier for the plant location associated with a vendor contract.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: BudgetCodeId

Column Data Type: uniqueidentifier

Short Description: A unique identifier for budget allocation associated with vendor-related projects.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: MaterialGroupId

Column Data Type: uniqueidentifier

Short Description: The 'materialgroupid' is a unique identifier used to categorize materials within vendor management processes, facilitating streamlined procurement and inventory tracking.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: FundId

Column Data Type: uniqueidentifier

Short Description: Unique identifier for the financial source allocated to a vendor project.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: FundCenterId

Column Data Type: uniqueidentifier

Short Description: The 'fundcenterid' is a unique identifier for the financial center responsible for managing and allocating funds within the vendor management process.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: ProjectedPoValue

Column Data Type: decimal

Short Description: The projected purchase order value estimates the financial commitment for vendor services within a specified period.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Status

Column Data Type: int

Short Description: Indicates the current progress or state of a vendor-related project or task.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CurrencyTypeId

Column Data Type: uniqueidentifier

Short Description: The 'currencytypeid' field specifies the type of currency used for transactions within the vendor management system, ensuring accurate financial reporting and compliance.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Group

Column Data Type: varchar

Short Description: The 'group' column categorizes vendors into specific clusters based on shared characteristics or business functions, facilitating streamlined management and analysis.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Section

Column Data Type: varchar

Short Description: The 'section' column categorizes the specific area or division within the organization that is responsible for managing the vendor relationship. It helps in identifying the internal structure and accountability for vendor-related activities.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Department

Column Data Type: varchar

Short Description: The 'department' column identifies the specific organizational unit responsible for managing vendor relationships and overseeing procurement activities within the company.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CreatedBy

Column Data Type: nvarchar

Short Description: The 'createdby' field identifies the individual or system responsible for the initial entry of the vendor management record.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: ModifiedBy

Column Data Type: varchar

Short Description: The 'modifiedby' field records the identifier of the user who last updated the vendor management record.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CreatedOn

Column Data Type: datetime

Short Description: The 'createdon' field records the exact date and time when a vendor management record was initially entered into the system.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: ModifiedOn

Column Data Type: datetime

Short Description: The 'modifiedon' field records the date and time when a vendor management record was last updated.

Domain Name: Vendor Management
Sub Domain Name: Contract Management
Table/View Name: vw_SOWJD
Column Name: Id_Identity
Column Data Type: int
Short Description: Unique identifier for vendor records.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: remarks

Column Data Type: varchar

Short Description: Additional notes or comments related to the vendor management process.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: CostCenter

Column Data Type: uniqueidentifier

Short Description: The 'costcenter' field identifies the specific financial unit within a company responsible for managing and tracking expenses related to vendor engagements.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: DMRemarks

Column Data Type: varchar

Short Description: The 'dmremarks' field captures detailed notes or observations made by the decision-maker regarding vendor management processes.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: LocationModeId

Column Data Type: int

Short Description: The 'locationmodeid' specifies the operational mode of a vendor's location, indicating how services are delivered or managed.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: RecordOwner

Column Data Type: varchar

Short Description: The 'recordowner' field identifies the individual or entity responsible for maintaining and updating the vendor management record.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: BUSpoc

Column Data Type: nvarchar

Short Description: The 'buspoc' field identifies the Business Point of Contact responsible for overseeing vendor-related activities and communications within a project.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: BuHot

Column Data Type: nvarchar

Short Description: The 'buhot' field represents the Business Unit Head of Technology, responsible for overseeing technology-related vendor management activities within the organization.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: groupId

Column Data Type: int

Short Description: A unique identifier for categorizing vendors into specific groups for streamlined management and analysis.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: SowjdReference

Column Data Type: uniqueidentifier

Short Description: The 'sowjdreference' serves as a unique identifier linking specific Statements of Work (SOW) to their corresponding job descriptions within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: L1DeligationCount

Column Data Type: int

Short Description: The 'l1deligationcount' field tracks the number of Level 1 delegations assigned to a vendor project.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: L2DeligationCount

Column Data Type: int

Short Description: The 'l2deligationcount' represents the number of Level 2 delegations involved in a vendor management process.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: isRepeatOutsourcing

Column Data Type: nvarchar

Short Description: Indicates whether the current outsourcing engagement is a repeat occurrence with the same vendor.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: DH

Column Data Type: varchar

Short Description: The 'dh' column represents the Department Head responsible for overseeing vendor management activities within the organization.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: actulSecSpoc

Column Data Type: varchar

Short Description: The 'actulsecspoc' field identifies the actual secondary point of contact responsible for overseeing vendor-related activities within a specific section.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: SectionId

Column Data Type: bigint

Short Description: Unique identifier for the specific section within a vendor management project.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: SecSpocFullName

Column Data Type: nvarchar

Short Description: The full name of the secondary point of contact responsible for vendor management within a specific section.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: BuSpocNTID

Column Data Type: varchar

Short Description: The 'buspocntid' serves as a unique identifier for the Business Point of Contact (POC) within the Vendor Management domain, linking specific vendor-related activities to the responsible business unit.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: Buld

Column Data Type: bigint

Short Description: The 'buid' serves as a unique identifier for business units within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: buSpocFullName

Column Data Type: nvarchar

Short Description: The full name of the Business Point of Contact (BusPOC) responsible for vendor management activities.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: SecSpoc

Column Data Type: varchar

Short Description: The 'secpoc' field identifies the secondary point of contact responsible for overseeing vendor-related activities within a specific section.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: secSpocEmpNumber

Column Data Type: nvarchar

Short Description: Unique identifier for the secondary point of contact's employee number.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: DepartmentHeadNtid

Column Data Type: varchar

Short Description: Unique identifier for the department head responsible for overseeing vendor management activities.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: DepartmentHeadEmpNumber

Column Data Type: bigint

Short Description: Unique identifier for the department head's employee number.

Domain Name: Vendor Management

Sub Domain Name: Contract Management

Table/View Name: vw_SOWJD

Column Name: PMOSecretarySpoc

Column Data Type: varchar

Short Description: The 'pmosecretaryspoc' field identifies the primary point of contact within the Project Management Office (PMO) for vendor-related inquiries and coordination.
