Short Description: The 'price' column represents the monetary value assigned to a vendor's service or product within a contract.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: StandardDays

Column Data Type: decimal

Short Description: The 'standarddays' column represents the typical number of working days expected for a vendor or contractor within a specified period.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: StandardHours

Column Data Type: decimal

Short Description: Standard hours represent the expected number of working hours per day for a vendor.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: OTRatio

Column Data Type: decimal

Short Description: The 'otratio' represents the ratio of overtime hours to standard working hours for a vendor's employee.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: ConversionHour

Column Data Type: decimal

Short Description: The 'conversionhour' represents the equivalent hours converted from overtime or other non-standard working hours, used to calculate vendor billing and employee compensation.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: StandardWorkingDays

Column Data Type: decimal

Short Description: Represents the predefined number of working days expected for a vendor within a contract period.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: DateOfJoining

Column Data Type: datetime

Short Description: The 'dateofjoining' field records the initial date when a vendor's employee officially starts their engagement with the organization.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: ContractEndDate

Column Data Type: datetime

Short Description: The 'contractenddate' marks the final day of a vendor's contractual engagement.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: SkillSetName

Column Data Type: varchar

Short Description: The 'skillsetname' column identifies the specific set of skills or expertise associated with a vendor or employee, crucial for matching project requirements and evaluating performance.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: GradeName

Column Data Type: varchar

Short Description: The 'gradename' column specifies the classification or level of expertise assigned to a vendor's skillset, reflecting their proficiency and experience.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: WorkStartDate

Column Data Type: datetime

Short Description: The 'workstartdate' marks the commencement of a vendor's engagement period, indicating when they officially begin their assigned tasks or projects.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: WorkEndDate

Column Data Type: datetime

Short Description: The 'workenddate' marks the final day a vendor's employee is scheduled to work on a project.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: FullName

Column Data Type: varchar

Short Description: The 'fullname' column captures the complete name of the vendor or employee, serving as a primary identifier within the Vendor Management system.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: Ntid

Column Data Type: varchar

Short Description: The 'ntid' serves as a unique identifier for each vendor or contractor within the Vendor Management system, ensuring accurate tracking and management of individual records.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: PoLineItem

Column Data Type: int

Short Description: The 'polineitem' represents a unique identifier for each line item within a purchase order, crucial for tracking and managing vendor-related transactions.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: ProjectIDName

Column Data Type: uniqueidentifier

Short Description: The 'projectidname' column uniquely identifies the name associated with a specific project within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: MaximumworkingdaysRef

Column Data Type: decimal

Short Description: Reference value indicating the maximum allowable working days for a vendor within a specified period.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: Maximumworkingdays

Column Data Type: decimal

Short Description: The 'maximumworkingdays' field represents the highest number of days a vendor can work within a specified period, typically a month, as per contractual agreements.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: AccessCardReturned

Column Data Type: bit

Short Description: Indicates whether the access card has been returned by the vendor's employee.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: AssetReturned

Column Data Type: bit

Short Description: Indicates whether the vendor's assets have been returned upon contract completion.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource

Column Name: EmploymentStatus

Column Data Type: bit

Short Description: Indicates the current work engagement status of a vendor's employee.

Domain Name: Vendor Management

Sub Domain Name: Financial Operations

Table/View Name: SOWJD_SRN_Resource
