

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: Id

Column Data Type: uniqueidentifier

Short Description: A unique identifier for each vendor record.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: EmployeeNumber

Column Data Type: bigint

Short Description: A unique identifier assigned to each employee within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: Title

Column Data Type: nvarchar

Short Description: The 'title' column represents the professional designation or role of an individual within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: FirstName

Column Data Type: nvarchar

Short Description: The 'firstname' field captures the given name of a vendor's representative, essential for personalized communication and identification within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: MiddleName

Column Data Type: nvarchar

Short Description: The 'middlename' field captures the middle name of a vendor's employee, providing additional identification and differentiation among individuals with similar first and last names.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: LastName

Column Data Type: nvarchar

Short Description: The 'lastname' field captures the family name or surname of a vendor's employee, serving as a key identifier in personal and professional records.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: FullName

Column Data Type: nvarchar

Short Description: The 'fullname' field captures the complete name of an individual, combining their first, middle, and last names, essential for identifying and managing vendor-related personnel.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: Ntid

Column Data Type: varchar

Short Description: The 'ntid' (Network ID) is a unique identifier assigned to each vendor employee for accessing company systems and networks.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: BoschEmailID

Column Data Type: nvarchar

Short Description: The 'boschemailid' is a unique identifier assigned to each vendor employee, facilitating official communication within the Bosch ecosystem.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: DateofBirth

Column Data Type: date

Short Description: The 'dateofbirth' field records the birth date of a vendor employee, crucial for identity verification and age-related compliance.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: Gender

Column Data Type: nvarchar

Short Description: The 'gender' field identifies the gender of the vendor personnel, aiding in demographic analysis and ensuring compliance with diversity policies.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: Nationality

Column Data Type: nvarchar

Short Description: The 'nationality' field identifies the country of origin or citizenship of a vendor or employee, providing essential demographic information for compliance and diversity tracking within vendor management systems.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: OfficialEmailId

Column Data Type: nvarchar

Short Description: The 'officialemailid' is a unique email address assigned to a vendor for formal communication within the organization.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: PersonalEmailId

Column Data Type: nvarchar

Short Description: The 'personalemailid' field captures the personal email address of the vendor or employee, distinct from their official work email, facilitating non-work-related communication.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: PrimaryContactCode

Column Data Type: char

Short Description: The 'primarycontactcode' is a unique identifier used to categorize and manage the primary contact method for a vendor or employee within the Vendor Management system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: PrimaryContactNumber

Column Data Type: varchar

Short Description: The primary contact number serves as the main phone number for reaching the vendor's primary contact person.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: AlternateContactCode

Column Data Type: char

Short Description: A unique identifier for an alternate contact method associated with a vendor.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: AlternateContactNumber

Column Data Type: varchar

Short Description: The 'alternatecontactnumber' field stores an additional phone number for a vendor, providing a secondary means of communication beyond the primary contact number.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: EmergencyContactName

Column Data Type: nvarchar

Short Description: The 'emergencycontactname' field records the full name of the individual to be contacted in case of emergencies related to the vendor.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: EmergencyContactCode

Column Data Type: char

Short Description: The 'emergencycontactcode' is a unique identifier used to categorize the type of contact number provided for emergency situations.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: EmergencyNumber

Column Data Type: varchar

Short Description: The 'emergencynumber' field stores the contact number to be used in case of emergencies related to the vendor or employee.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IdentityType

Column Data Type: varchar

Short Description: The 'identitytype' column specifies the category of identification used to verify the identity of a vendor or employee, such as passport, driver's license, or national ID.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IdNumber

Column Data Type: varchar

Short Description: A unique identifier assigned to a vendor for verification and record-keeping purposes.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: TotalExperienceYear

Column Data Type: nvarchar

Short Description: Represents the cumulative number of years an individual has worked across all roles and companies.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: TotalExperienceMonth

Column Data Type: nvarchar

Short Description: The 'totalexperiencemonth' field quantifies the additional months of professional experience a vendor has, complementing the 'totalexperienceyear' field.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: RelevantExperienceYear

Column Data Type: nvarchar

Short Description: The 'relevantexperienceyear' field indicates the number of years an employee has worked in roles directly related to vendor management.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: RelevantExperienceMonth

Column Data Type: nvarchar

Short Description: The 'relevantexperiencemonth' field quantifies the number of months an employee has relevant experience in vendor management, complementing the 'relevantexperienceyear' field.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IsPreviouslyWorkedinBGSW

Column Data Type: bit

Short Description: Indicates if the individual has prior work experience with Bosch Global Software Technologies (BGSW).

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: BoschEmployeeNumber

Column Data Type: nvarchar

Short Description: Unique identifier assigned to Bosch employees for vendor management purposes.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: LWDatBGSW

Column Data Type: date

Short Description: The 'lwdatbgsw' column represents the last working day at Bosch Global Software Technologies (BGSW) for an employee.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: OnboardingRequestId

Column Data Type: varchar

Short Description: A unique identifier for each vendor onboarding request.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: CompanyCode

Column Data Type: nvarchar

Short Description: The 'companycode' is a unique identifier assigned to each vendor company within the Vendor Management system, facilitating streamlined tracking and management of vendor-related activities.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: DateOfJoining

Column Data Type: datetime2

Short Description: The 'dateofjoining' field records the exact date an employee officially starts their tenure with the company, marking the commencement of their contractual obligations and integration into the organizational structure.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: ContractEndDate

Column Data Type: datetime2

Short Description: The 'contractenddate' marks the final day of a vendor's contractual agreement, indicating when their services are scheduled to conclude.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: LastWorkingDay

Column Data Type: datetime2

Short Description: The 'lastworkingday' field records the final day an employee is officially associated with the company.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: Status

Column Data Type: int

Short Description: Indicates the current operational state of a vendor or employee within the system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: CreatedOn

Column Data Type: datetimeoffset

Short Description: The 'createdon' field records the exact date and time when a vendor's profile or record was initially entered into the system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: CreatedBy

Column Data Type: nvarchar

Short Description: The 'createdby' field identifies the individual or system responsible for the initial entry of a vendor's data into the management system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IsDeleted

Column Data Type: bit

Short Description: Indicates whether a vendor record has been marked for deletion.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IsActive

Column Data Type: bit

Short Description: Indicates whether a vendor is currently active or inactive in the system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: CompanyId

Column Data Type: uniqueidentifier

Short Description: A unique identifier assigned to each company within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: ModifiedBy

Column Data Type: nvarchar

Short Description: The 'modifiedby' field records the identifier of the individual or system that last updated the vendor's information.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: ModifiedOn

Column Data Type: datetimeoffset

Short Description: The 'modifiedon' field records the date and time when a vendor's information was last updated in the system.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: ExitReasonId

Column Data Type: int

Short Description: The 'exitreasonid' is a unique identifier that specifies the reason for an employee's departure from the organization.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IsAccessCardReturned

Column Data Type: bit

Short Description: Indicates whether the access card issued to a vendor has been returned.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IsAssetReturned

Column Data Type: bit

Short Description: Indicates whether the employee has returned all company-issued assets upon exit.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: IsAccessCardIssued

Column Data Type: bit

Short Description: Indicates whether an access card has been issued to the vendor.

Domain Name: Vendor Management

Sub Domain Name: Master Tables

Table/View Name: ResourceHeaderMaster

Column Name: VendorId

Column Data Type: int

Short Description: A unique identifier assigned to each vendor within the Vendor Management system.
