Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: MiddleName

Column Data Type: nvarchar

Short Description: The 'middlename' field captures the middle name of a vendor's employee, providing additional identification and differentiation among individuals with similar first and last names.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: LastName

Column Data Type: nvarchar

Short Description: The 'lastname' field captures the family name or surname of a vendor's employee, essential for identification and record-keeping within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: FullName

Column Data Type: nvarchar

Short Description: The 'fullname' field captures the complete name of an individual vendor or employee, combining their first, middle, and last names for identification and record-keeping purposes.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: Ntid

Column Data Type: varchar

Short Description: The 'ntid' (Network ID) is a unique identifier assigned to each vendor employee for accessing the company's network and systems.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: BoschEmailID

Column Data Type: nvarchar

Short Description: The 'boschemailid' is a unique identifier assigned to each vendor employee, facilitating official communication within the Bosch ecosystem.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: DateofBirth

Column Data Type: date

Short Description: The 'dateofbirth' field records the birth date of a vendor employee, crucial for identity verification and age-related compliance.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: Gender

Column Data Type: nvarchar

Short Description: The 'gender' field identifies the gender of the vendor or employee, aiding in demographic analysis and ensuring inclusive communication.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: Nationality

Column Data Type: nvarchar

Short Description: The 'nationality' field identifies the country of origin or citizenship of a vendor or employee, providing essential demographic information for compliance and diversity tracking within vendor management systems.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: OfficialEmailId

Column Data Type: nvarchar

Short Description: The 'officialemailid' is a unique email address assigned to a vendor for formal communication within the organization.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: PersonalEmailId

Column Data Type: nvarchar

Short Description: The personal email address of the vendor or employee, used for non-official communication.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: PrimaryContactCode

Column Data Type: char

Short Description: The 'primarycontactcode' is a unique identifier used to categorize and manage the primary contact method for a vendor or employee within the Vendor Management system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: PrimaryContactNumber

Column Data Type: varchar

Short Description: The primary contact number serves as the main phone number for reaching the vendor's primary contact person.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: AlternateContactCode

Column Data Type: char

Short Description: A unique identifier for an alternate contact method associated with a vendor.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: AlternateContactNumber

Column Data Type: varchar

Short Description: The 'alternatecontactnumber' field stores an additional phone number for a vendor, providing a secondary means of communication beyond the primary contact number.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: EmergencyContactName

Column Data Type: nvarchar

Short Description: The 'emergencycontactname' field records the full name of the individual to be contacted in case of emergencies related to the vendor.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: EmergencyContactCode

Column Data Type: char

Short Description: A unique identifier for the type of emergency contact number provided.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: EmergencyNumber

Column Data Type: varchar

Short Description: The 'emergencynumber' field in Vendor Management captures the contact number designated for urgent situations involving the vendor or their representative.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Short Description: Represents the cumulative number of years an individual has worked across all roles and companies.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: TotalExperienceMonth

Column Data Type: nvarchar

Short Description: Represents the cumulative months of professional experience an individual has acquired, complementing the 'totalexperienceyear' field.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: RelevantExperienceYear

Column Data Type: nvarchar

Short Description: The 'relevantexperienceyear' column captures the number of years an employee has worked in roles directly related to vendor management.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: RelevantExperienceMonth

Column Data Type: nvarchar

Short Description: The 'relevantexperiencemonth' field quantifies the number of months an employee has worked in roles directly related to their current position within the vendor management domain.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: IsPreviouslyWorkedinBGSW

Column Data Type: bit

Short Description: Indicates whether the individual has prior work experience with Bosch Global Software Technologies (BGSW).

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: BoschEmployeeNumber

Column Data Type: nvarchar

Short Description: The 'boschemployeenumber' is a unique identifier assigned to employees within Bosch, used for tracking and managing vendor-related activities.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: LWDatBGSW

Column Data Type: date

Short Description: The 'lwdatbgsw' column represents the last working day at Bosch Global Software Technologies (BGSW) for an employee or vendor.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: OnboardingRequestId

Column Data Type: varchar

Short Description: A unique identifier for each vendor onboarding request.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: CompanyCode

Column Data Type: nvarchar

Short Description: A unique identifier assigned to each vendor company within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: DateOfJoining

Column Data Type: datetime2

Short Description: The 'dateofjoining' field records the official start date of a vendor's engagement with the company, marking the commencement of their contractual obligations.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: ContractEndDate

Column Data Type: datetime2

Short Description: The 'contractenddate' marks the final day of a vendor's contractual agreement, indicating when their services are scheduled to conclude.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: LastWorkingDay

Column Data Type: datetime2

Short Description: The 'lastworkingday' field records the final day an employee is officially associated with the company.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: Status

Column Data Type: int

Short Description: Indicates the current operational state of a vendor or employee within the system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: CreatedOn

Column Data Type: datetimeoffset

Short Description: The 'createdon' field records the exact date and time when a vendor's profile or record was initially entered into the system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: CreatedBy

Column Data Type: nvarchar

Short Description: The 'createdby' field identifies the individual or system responsible for the initial entry of a vendor's data into the management system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: IsDeleted

Column Data Type: bit

Short Description: Indicates whether a vendor record has been marked for deletion.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: IsActive

Column Data Type: bit

Short Description: Indicates whether a vendor is currently active or inactive in the system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: CompanyId

Column Data Type: uniqueidentifier

Short Description: A unique identifier assigned to each company within the vendor management system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: ModifiedBy

Column Data Type: nvarchar

Short Description: The 'modifiedby' field records the identifier of the individual or system that last updated the vendor's information.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: ModifiedOn

Column Data Type: datetimeoffset

Short Description: The 'modifiedon' field records the date and time when a vendor's information was last updated in the system.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: ExitReasonId

Column Data Type: int

Short Description: The 'exitreasonid' field identifies the specific reason for an employee's departure from the organization, aiding in vendor management and workforce analysis.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: IsAccessCardReturned

Column Data Type: bit

Short Description: Indicates whether the access card issued to a vendor has been returned.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: IsAssetReturned

Column Data Type: bit

Short Description: Indicates whether the employee has returned all company-issued assets upon exit.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: IsAccessCardIssued

Column Data Type: bit

Short Description: Indicates whether an access card has been issued to the vendor.

Domain Name: Vendor Management

Sub Domain Name: Resource Management

Table/View Name: ResourceHeaderMaster

Column Name: VendorId

Column Data Type: int

Short Description: A unique identifier assigned to each vendor within the Vendor Management system.
